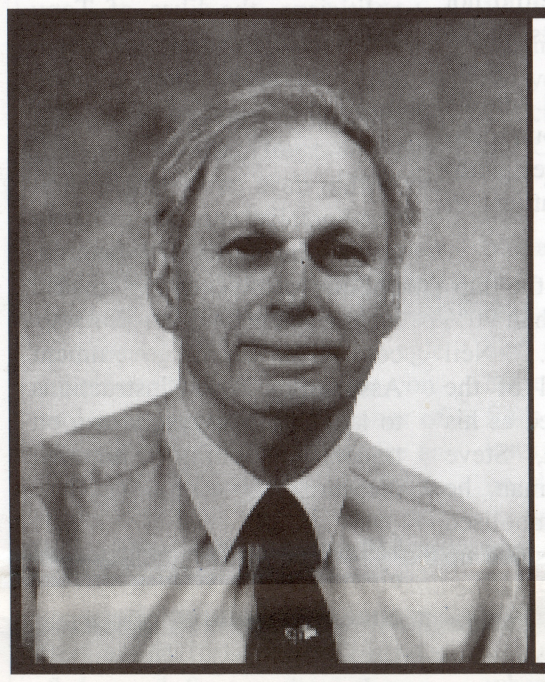
## OF THE VOTE IN THE NELSON WARD OF GREAT YARMOUTH



## LOCAL ELECTIONS 2004

NF chairman **Tom Holmes** (left) came within 123 votes of being our first elected councillor in the 10th June 2004 local elections with an overall 19.1% party share of the vote in a first 3 past the post contest in the boundary changed Nelson ward beating the Lib Dems and the LCA. This represents a massive increase in our share of the vote since the last time Tom stood in Gt. Yarmouth.

**Ken Booth** (right) contested the Newburn Ward of Newcastle with 446 votes and a 14.6% party share of the vote beating all 3 conservative candidates in another well fought election campaign.

*See page 8 for our full election candidates, results and round-up.*

## REPLACING OUR BRITISH IDENTITY WITH EVERYTHING FOREIGN

**Roy Ferguson from Northern Ireland had a letter published in the Daily Mail in which he said, "People in mainland Britain should not be surprised that Tony Blair is removing anything to do with the word Royal and diluting their Britishness.**

Here in Northern Ireland it happens all the time to appease a so-called "oppressed minority". We can't even buy gifts at our airports or on ferries with the Union flag on them. Here all that is on offer for sale are little Irish dolls which shove our unwanted Irishness down our throats. Blair will not be happy until the UK is ruled by Brussels and the Queen is living in a council house."

Mr Ferguson is quite right. There is a network of subversives destroying our culture, religion and national identity, while developing a dictatorship to enforce their anti-British programme. Most people call this political correctness. It is in fact more evil and sinister than the title Political Correctness would imply.

There are many, including politicians, media pundits and members of the Royal Family, who seem unclear about what constitutes the British nation.

**It is comprised solely of the English, Northern Irish, Scottish and Welsh as well as a small number of islanders.**

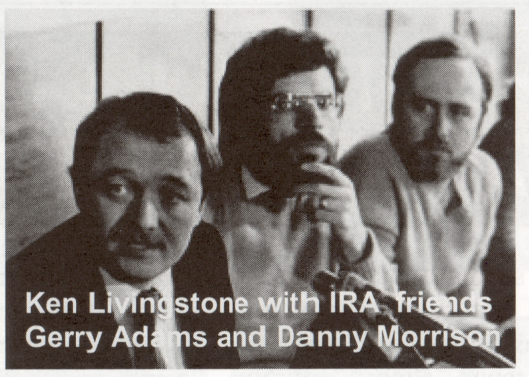
*Any people not listed in that above group are not British.*

**Anyone who says that foreigners are British are either fools or traitors.**

It is evident that the British are all of the white race. Only in exceptional special circumstances could a non-white be considered British.

If this ever became applicable, British nationality should be granted by the British and not by alien fifth columnists.

The Labour Party has for many years openly given its support to IRA terrorists. It should be the purpose of a British government to look after the welfare of British citizens and defend our nation.



Ken Livingstone with IRA friends Gerry Adams and Danny Morrison

**It is an act of treason to back anti-British terrorists.**

Don't think that because the cosmopolitan Labour Party supports the IRA it has any great liking for the Southern Irish. Eire now has similar problems to mainland Britain, with immigrants, asylum-seekers and Eastern European gypsies. It too is blighted with political correctness.

**Socialists are just as eager to destroy the white Southern Irish nation as they are all other white nations.**

By Socialists we mean Internationalists, and that includes Communists, Liberals and so-called Conservatives.

# BRINGING BLAIR TO HEEL

**Blair and the treacherous nonentities in Parliament are being allowed to abuse their position to an alarming degree.**

It is incredible how Tony Blair has got away with committing our troops to take part in an unlawful attack on Iraq, when there was clearly no good reason for doing so. Before the erosion of the British constitution by both Labour and Conservative governments, the public were safeguarded from acts of parliamentary treachery by the combined force of the Queen, the most senior officers of the armed forces, top civil servants and the House of Lords.

In a letter published in the Daily Mail on 17.3.04, Major C. Blackthorne wrote to say that he had carried out two active-duty stints in Basra and was about to return there. He wanted to make it clear that "the majority of the British Armed Forces either take offence or think it's hilarious when they hear of the likes of suicide bombers Omar Sharif and Asif Hanif - or those recently released from Guantanamo Bay - referred to as British.

The Major makes the point that his views may sound racist but that his comrades-in-arms have lost five dozen of their own lads - and several hundred U.S. soldiers. Commenting again on Muslims in Britain he rightly states, "Such people might have been born in the UK, but that's as far as it goes. To accept them as Britons simply because they were born here is beyond the pale."

Tony Blair should not be allowed to simply walk away when he is forced to leave number 10, Downing Street. He should one day be tried for his treachery, not only over the three wars he has needlessly got us bogged down in, but also on account of his attempt to end the supreme power of Parliament and put the British nation under the control of a foreign power.

There is also the issue of the Prime Minister working with unelected clandestine groups and pushing through their anti-British agenda. We could no doubt also turn the tables on New Labour and use their compensation culture laws against them.

There must be many thousands of British citizens who have suffered loss, injury or the death of a loved one due to this appalling government's wilful neglect and abuse of the police force and the NHS.

**The National Front are going from strength to strength with increased membership, increased subscriptions for our publications, increased demand for information packs, increased sales of merchandise, increased level of activities all over Britain, increased website traffic and most importantly our increased percentage share of the vote in the recent local elections.**

We would like to thank Norman Fowler for all his past help as assistant editor with the paper. Ken Booth now takes over Norman's role since his move to America. We would also like to thank the people who have donated to the Flame, in particular Mr. Andrews for his kind donation of £50. Donations are important as they allow us to produce larger print runs as well as keeping the paper self-financed and not drawing any money from party funds.

**Election Candidates -** Have you got what it takes? If you are interested in standing as a National Front candidate in any future election please get in touch.

The AGM will be in October and our Annual Remembrance Parade and Service in November. These are two of our most important events, please contact your local unit or NFHQ if you wish to attend.

**All in all a very successful 2004 so far for the National Front and things can only get better as more people are waking up to the stark reality of present-day Britain and are getting involved in Nationalism.**

# A TRIBUTE TO A GREAT ENGLISHMAN

**Steve Thorburn, the "Metric Martyr" one of the few who boldly took up the fight for the many. This over an issue that the entire nation should have resolved to their satisfaction at the time Edward Heath signed the Treaty of Rome.**

**Steve Thorburn, the fruit and vegetable trader from Sunderland, known and respected as the "Metric Martyr" died after a suspected heart attack at the age of 39.**

Steve was prosecuted three years ago for selling goods in pounds and ounces. He did not give in to the EU tyrants, or the traitors at Westminster. Instead he battled on to try and win the right for us all to use our traditional Imperial measures without fear of intimidation or prosecution.

In his venture he had the support of probably more than 90% of the British public. Neil Herron, a close friend of the market trader, who acted as his campaign director said, "Steve was an extraordinary man, he was one of us and symbolised who we are. That man stood up for all of us and he did that because of what he was, a genuine man who cared about people."

The Metric Martyr, with massive public support, took his case to the High Court and the House of Lords. Most people expected him to win. But he lost and could not get his conviction overturned. Quite simply, Steve Thorburn represented us. The High Court, Parliament and the House of Lords represented the enemy.

It is a shame that hundreds of thousands of his fellow countrymen didn't get on the streets to back him. Because too many Britons have generally gone along with what amounts to treason on the part of senior politicians, the likes of Tony Blair and Peter Hain think that they can thumb their nose at the public and do as they please.

Within days of Steve's funeral our Socialist enemies made an attempt to further browbeat the public into accepting metric measurements. The Labour-controlled Local government Association issued instructions to launch a new crackdown on traders still selling in imperial measures.

**On this issue we can clearly see a strong difference of opinion between the British and those who rule over us.**

Anyone who votes Labour, Liberal or Conservative would be betraying all that the Metric Martyr did for us, and giving even more power to our Internationalist and Socialist enemies.

# NEWS THAT THE NF WILL CONTEST ELECTIONS IN WALES HAS DRAWN HOSTILITY FROM OUR ENEMIES

**Communists, subversives, extreme Zionists and Satanists have, in large numbers, placed themselves into positions from where they have dictated their poisonous doctrines on an unsuspecting public. Nowhere has this been more clearly seen than in the politically-correct cronyism which has been the hallmark of New Labour.**

After allowing internationalists, for 40 years, a free hand in wrecking our country, we have come to the sorry state we see in Britain today. Crime levels have risen in direct proportion to the number of foreigners who have arrived here, a fact that one-worlders are not prepared to discuss. Perversion has become an obsession for many who rule over us, hence the commitment Parliament has had for putting sexual deviation and child sex education near the top of its agenda. Interestingly sodomy, buggery and child sex feature heavily within the realms of Satanism, and this trait is found almost entirely among social workers, teachers, judges, clergymen, career politicians, entertainers and the new breed of politically-correct police officers. All of them you will note tend to be left wing. These strange obsessed people live in a twisted, "dark-world" of their own, with no understanding of the fears or aspirations of the general public.

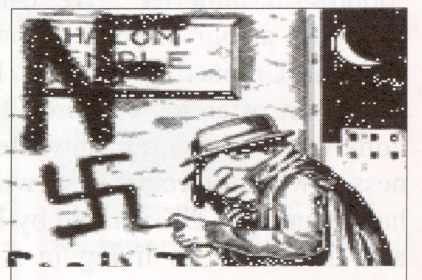
As soon as the National Front announced that it was to contest elections in Wales, a barrage of abuse spewed forth through the local newspapers. Editors here, as elsewhere, allowed our enemies to mis-inform the public as to what our policies are, rather than to give a voice to official NF spokesmen. Asians and blacks are allowed, and even encouraged, to shout down and hurl abuse at the indigenous British, whilst any attempt by whites to complain about the unfairness of it all is threatened with arrest for so-called "racial harassment". In fact the white man is the only one ever inconvenienced or continually harassed, in what should be considered his exclusive homeland.

Plaid Cymru is an anti-nationalist Communist Organisation which was set up by extreme left-wing fanatics of the Militant Tendency variety. Their street violence, methods of intimidation and uncouth behaviour resulted in them being forced out of the Labour Party at a time that Socialists were receiving poor election results. These Plaid Cymru fraudsters are virulently against all forms of nationalism. One must ask oneself the question. What are these people doing running the only nationalist party in Wales if they are against the principle of nations? When feuds and fights break out, as they will, between the Welsh and newly-arrived immigrants, you can be certain, no matter what the cause of the problem, Plaid Cymru will always be on the side of the alien.

**"Searchlight"** was described in the South Wales press as an organisation "set-up more than 30 years ago to combat racism, fascism and all forms of prejudice".

**What wasn't stated however, is that is an extreme Zionist organisation which is the most prejudiced, vindictive and racist body we can think of.**

Its sole purpose is to see-off any party that it perceives to be a threat to the stranglehold its fellow travellers have over British government policy. "Searchlight spokesman, Ian Titherington was candidate for the extreme left-wing Plaid Cymru in Bonymaen in 1996.



TYPICAL FAR-LEFT TACTIC IN ATTEMPTING TO SMEAR THE NATIONAL FRONT

Although our opponents like to give the impression there are various groups against us, basically they all come from the same stable.

For decades the working class have blindly followed the Labour Party. Having been continually sold out over the years, voters have recently given the Socialists the bloody nose they deserve, when Labour, the ruling party, came a dismal third.

# ENGLAND UNDER OCCUPATION

**In May this year Channel 4 decided "in the public interest" not to screen a programme that shows Asian men grooming white girls for sex abuse because it could inflame racial tensions".**

Their real fear is that there might be an outcry from the English who may put an end to this appalling abuse. It would of course strengthen the argument of the National Front that it would be better to repatriate non-whites to their homelands and would create some upheaval in one generation's lifetime rather than create a situation similar to Israel's for all further generations.

We must also bear in mind that the immigrants who have come here by choice have already uprooted themselves once when they left their homelands which were familiar to them and chose to come here.

The channel 4 programme that we were not allowed to see featured an 18-month investigation by police and social services in West Yorkshire which claimed that Asian men were preparing underage white girls for sex, drug abuse and prostitution.

The programme also included clips of a mixed-race affair as well as a 17-year-old Muslim boy with 96, convictions, working as a social worker. In order for the race-mixing authorities to carry on with its lunatic building of a multi-racial society it was deemed necessary by the police to cancel the programme because it could lead to public disorder.

This is an assault on our nation. All of the victims in this appalling crime were young white girls and all of the alleged perpetrators are Asian males. It is the job of the police to prevent crime and keep the public safe. It is not the duty of police officers to assist socialists in criminal activity or help bring about the downfall of our once-great nation.

In any way they can, anti-racists who hold positions of power and influence are using their office to get rid of our institutions, religion, culture and identity. What took over 2,000 years of blood, sweat and toil to create has all but been destroyed in 50 years. Unfortunately for us it is much easier to destroy than it is to create. A situation that has been exploited to the full by the Liberal, Labour, Conservative and Communist alliance.

Most people in Britain do not realise that we are at war. They see our towns, cities and villages being taken over by aliens and they must have noticed the rapid disappearance of their fellow countrymen. Despite being treated like dirt, most Britons, have up until now, elected to grin and bear it.

Even a casual foreign observer would be aware of how everyone's needs come before that of the Englishman. Yet he is the one who is expected to work long hours and make sacrifices for everyone else's benefit and receive verbal abuse should he complain.

**Under such circumstances would anyone really believe that we control our own Parliament?**

There has been a foreign takeover of our country and we appear to have lost a great number of our comrades. These have been more than replaced by the ever multiplying sea of non-white humanity.

If the process is not stopped and reversed our white nation will be adulterated out of existence. Which is clearly the intention of anti-racists.

**We cannot see this as anything but war.**

# TRUTH IS STRANGER THAN FICTION

**During the European Championships, one in five cars has been seen flying the English flag.**

For some it was merely a way of getting into the spirit of the tournament, while for others it was an opportunity to defy New Labour, and show a pride in being English.

Anti-English politicians had threatened drivers with £2,500 fines for fixing Cross of

St George flags to their cars. However, so many drivers have shown contempt for New Labour's arrogance that spot fines could not have been carried out without widespread public hostility.

The claim made by anti-nationalists that our flag causes offence to foreigners is absurd. On the one hand they say that aliens shun the Cross of St George, yet are always keen to show members of other races waving our flag because in this way it becomes a meaningless, with no more significance than a length of bunting.

**Untrustworthy politicians attempt to use safety as an excuse for clamping down on flag-flying, yet two years ago drivers like cabbie John Preston were threatened with the same punishment for having English flag stickers on their vehicles. Mr Preston was told to remove the sticker because it was "racist." Happily, Mr Preston refused.**

We keep hearing our nation's enemies talking about the public taking the flag back from extremists.

*What Socialists mean is that our national flag will only be tolerated by them only if it is used like a rattle at a football match.*

**Should the English want to use it for its real purpose of proclaiming our national identity, the "race card" will be played, and the choice offered of either surrendering our country or being given a hard time by the authorities.**

# POWER LIES WITH THE PEOPLE - IF ONLY THEY KNEW

**Countryside and fuel protestors have made a lasting impression and gained much support and sympathy from the general public.**

Under the circumstances, one might have expected senior politicians to accede to some demands, considering that hardship was being caused through political mismanagement. However, parliamentarians have their own agenda, which has little to do with serving public needs or working in the national interest. They are perfectly well aware that they are creating misery and hardship for millions of our fellow countrymen.

You cannot expect career politicians to change. This is what they set out to do. Those who believe that lobbying their MP, or voicing objections, will make one iota of difference are living in cuckoo land.

Currently the Labour, Liberal and Conservative Parties are working with Communists in an attempt to reduce, by any foul means, the chance of electoral success for Nationalist candidates. As nationalist policies reflect the will of the people, it is clear that the major parties have no intention of doing what the majority want. Parliaments contempt for the public has become blatant and can be clearly seen on issues such as pensions, asylum, Britain's increasing subservience to the developing Eurostate, political control of the police, sex awareness programmes for young children and military engagement in countries where we have no business to be.

Council tax rises have created money worries for many families and old-age pensioners. Without taking into consideration this year's tax-hike, there has already been a 70% rise since 1997. The state pension has only increased on average by 4.04% over the same time.

*We don't need to be told that we no longer live in a Christian country.*

This is perfectly obvious when you consider that a pensioner can get a £60 parking fine for what is a trivial offence, yet is expected to live for a week on little more than this amount.

**Everyone who is contributing to public funds or who has done so in the past must feel used and cheated by the way government and councils squander billions of pounds of our hard-earned money on political correctness, the EU, foreigners, communists and the advancement of the bankers' New World Order.**

## SCOTLAND

Aberdeen member Sean Willett on one of our many paper sales

NF Scotland have now held 30 separate activities in Scotland this year and we have now been to Aberdeen, Dundee, Wishaw, Fraserburgh and Peterhead twice.

We have high profile activities planned for the rest of the year including our planned St Andrews day parade in Aberdeen on Sunday 28th Nov. This parade is open to all and we would very happy to see members from all over the UK at this parade. The local police have no objections to our parade and we hope to get the go ahead from the city council in the next 4-5 weeks. If anyone wishes to attend this parade please contact us, to confirm, as we need to keep the police informed of numbers attending.

We are also returning to Peterhead in August to follow up our Anti-Paedophile campaign. We now have confirmed addresses that are being used to house convicted child molesters in the town. This activity will also include a visit to the local football stadium to hold a papersale/ leafleting session.

Things are certainly on the up for the party in Scotland and let's hope that we can start making inroads into the electoral process such as the great results that our candidates in England have achieved lately.

Well done to all of our candidates you're a credit to the party.

Dave MacDonald, Organiser NF Scotland.

## NORTH EAST

After a very good St. Georges Day parade and rally in Newcastle, the North East fielded 5 candidates in the local elections, 3 in Newcastle, 1 in North Tyneside and 1 in South Tyneside with an average 11.8% share of the vote. With Charles Schmidt (South Tyneside) getting an excellent result with 262 votes and 13.4%. As a first-time candidate. (See back page for full results)

**Several new mosques are in the pipeline for Newcastle, on a much bigger scale than the one in Wingrove, pictured left.**

Plans are afoot for a mosque on the old fire station site (right) and the biggest mosque outside of Bradford in under construction in Elswick. **This madness must stop.**

## WEST MIDLANDS

Fielded 2 candidates in the local elections and ran the campaign for the Hodge Hill by-election.

## A TRIBUTE TO ALBERT ELDER

**(We promised in the previous edition to print this long overdue tribute.)**

Albert Elder was an outstanding member of the National Front who had a clear political vision. He formed the nucleus of a think-tank that used to meet regularly where he would put forward good ideas with a view to driving our party forward. Despite his advanced years he would often go out alone distributing National Front literature. He had been active with the "Powell for Prime Minister" movement, from which joining us seemed a natural progression.

Albert Elder, a man of wisdom and a great NF member.

Albert was an Orthodox Jew who had no shyness in his approach. He would often say that Jews have been around for over two thousand years because Jewish boy has married Jewish girl, and that is how it should be for all races. He advised Britons not to socialise with immigrants because it would give the impression that we had accepted their presence here. Further to this, if we were to allow them to spend time with our families, we would create a situation where non-white men would be going after our daughters.

He warned that our nation was in a more perilous state than we imagined. Not only had we lost political control and the ability to broadcast our message through the mass media, but much of the industry which we presumed our people owned, was in fact in foreign hands. There was also the rapidly growing problem of multi-national corporations who showed loyalty to no country. He suggested, that in order to improve our position, National Front members should provide lists to our members and supporters of all the businesses and services that we ourselves can provide, thus building up our own enterprises by working together as an enlarged family.

At the general election in 1979 Albert stood as a parliamentary candidate for the National Front in the North West London constituency of Hendon South. Despite having a large Jewish population in Hampstead and Golders Green, who no doubt voted according to the advice given by their self-appointed multi-racialist leaders, and having to contend with a large amount of left-wing hysteria, Albert obtained nearly 300 votes. He remained in close contact with Hendon branch members and retained a fighting spirit right up until his death. Those who knew Albert often think of him whenever Enoch Powell's name is mentioned.

# WHAT HAPPENED TO THE "LAND FIT FOR HEROES" ?

The Daily Mirror headline on 26th April was **"BRITAIN COULDN'T CARE LESS"**. It was a report on the scandalous, uncaring and often inhuman treatment of old people in care.

A Mirror investigation claimed that it "found cruelty and neglect of pensioners by heartless nursing home staff has now reached epidemic proportions." It is claimed that low paid and often untrained staff are putting lives at risk in care homes for both children and elderly. A regulator's report states that residents are often given the wrong medicines or drugs and overdosage also often occurs. Once again government is to blame. Care home owners have been forced to drastically cut their overheads just to stay in business. Increased costs and numerous new petty rules and regulations as well as the punitive rises in Council tax have been met by taking on untrained staff.

We agree that ill-treatment of our old folk has become unacceptably commonplace, but we ask whose fault is that? It is clear that Parliament puts the needs of pensioner's way down its list of priorities.

Successive governments have shown their contempt for parents and pensioners for many years, so much so, that the over-60s are now organising themselves in a political way.

**A left-wing social engineering programme began in earnest with the "swinging sixties". Wedges were driven between the generations.**

The young were made to feel important and vital and told that their pleasure was the absolute meaning of life. Anyone over fifty, particularly parents, were described as "square", stupid and old-fashioned. Long-established common values were sneered at, everything was for immediate pleasure - the "live now, pay later" culture had been born. Children absorb what goes on around them and from these experiences they form their attitudes towards life and how they respond to other people.

With the advent of mass electronic communication it became possible for a small number of people to control the thought-processes of the majority. Those who control the cinema, radio and television have far more influence over developing minds than parents or family. The often-repeated images of popularised anti-heroes, violence, recreational sex and selfish behaviour have made many youths rebellious, anti-social and irresponsible.

Old soldier Walter Chamberlain inadvertently walked into part of Oldham occupied by aliens.

New Labour in its current attempts to tear down long established British institutions is looking for support from those whom it turned against family, race and civilised order. Drug abuse, so widespread now in Britain, was deliberately introduced by multi-racialists. Drug addicts, looking for £700 per week to sustain their habit, hardly have time to cater for the time-consuming needs of the elderly. Immigrants, we are told are required to perform such tasks as caring for pensioners. We often come across reports of aliens treating our old folk in a despicable way.

Life for many has become a frantic rush to get everything done. The rapidly escalating cost of living has put an enormous strain on workers, who have effectively been placed on a financial treadmill.

They do not have the time to attend to their elderly parents' needs. In care homes it has become convenient to administer drugs to the elderly, inducing long periods of near-oblivion.

**A country is judged on how it treats its children and elderly. Under the control of our post-war Lib, Lab, Con alliance, they could hardly have fared worse.**

## SMOKE (SCREEN) GETS IN YOUR EYES - By Crusader

**Tony Blair's dream of being a major player in the formation of a Socialist European Super State stretching from the Atlantic to the Black Sea controlling the lives of 500 million people in 35 countries, has taken a slight knock in the recent home elections.**

Prior to the elections, Phoney Tony was very aware of the upsurge in Nationalism and his team of media spin doctors, plus their rent-a-mob of lefty louts, got to work on discrediting the National Parties and tried directing disgruntled voters towards the UKIP, with some effect.

Tony B'liar knew he could deal effectively with the UKIP as they are a ragged group of people with varying political beliefs, easly divided, with no real political agenda, apart from trying to break E.U. control of Britain.

However, the Nationalist Parties are a far different problem and have a strong political agenda for righting all the wrongs. He knows, if they had the same freedom of speech as other political groups, they could and would, carry the people to freedom from years of political lying, cheating and corruption.

**Having managed to contain the Nationalist vote with censorship, lies, violence and postal vote manipulation, he still has to face the problem of votes against his European dream and unrest by back benches over the loss of Labour Councillors.**

*So how does he deal with that?*

**He uses the old smoke screen of deception.**

First, you stand up and say that the war in Iraq was mainly to blame for vote losses and act the strong leader by saying how proud you are of getting rid of a terrible dictator and freeing the people of his tyranny. At the same time, say how much you respect the views of people who voted against the war followed by the old "trust me I'm your leader" ploy.

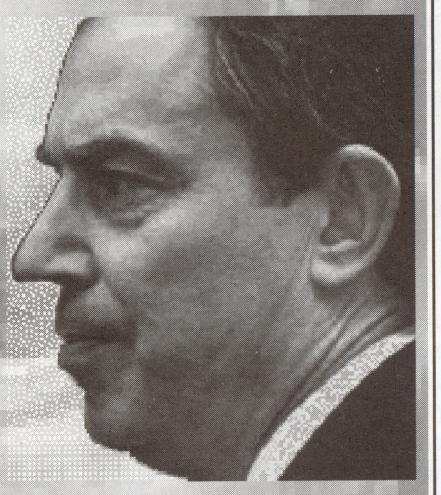
**Having deflected the blame for election losses on his brave decision to rescue the Iraqi people from Saddam and the rest of us from his invisible weapons of mass destruction, Tony B'liar then tells us all how he does not intend to sell us down the EU river, he is going to make sure our interests are well protected.**

### THEN COMES THE MASTER STROKE

He goes over to the European Constitution meeting and a massive row is 'Stage Managed' between him and his European buddies to show he is prepared to fight for the rights of the British people.

Yes, I said, staged managed. The French and Germans don't want to see Blair lose power. Apart from the ineffectual leader of the Lib Dems, he is the one person who is prepared to hand over complete sovereignty to the European Super State and not only that, he is on back slapping terms with President Bush. So they must defuse the vote against his leadership in Britain by giving him prominence, as Britain's strong man of the people, putting their interests before Europe.

Once the Media have squeezed every last drop of sensational news about "Europe in turmoil as Blair fights for British independence" and the people at home are shouting "Well done Tony" everything will quieten down, those same "furious" European leaders have "Compromised" and Blair has already slipped quietly back into his programme of forcing Britain into an enlarged Socialist Super State.



**There are lies, damned lies and Tony Blair.**

**As Churchill said in 1945, "Labour will use Gestapo methods to gain power". We all know they have already used it against the National Parties and presumably will continue to do so to hold onto power**

Blair sees himself as a powerful world leader and President elect of Europe. With the support of the Communist/Socialist groups at home and in Europe, he will grip the helm again and steer a relentless course to betray Britain and it's people.

Any future referendum on Britain's future will be an all-postal ballot, because it's all too easy to manipulate the results. He will be responsible for the death of this nation but as events unfold, will the people see the danger, or will they be kidded once again by the toothy grin of the smiling assassin?

## THIRD WORLD ALL-POSTAL BALLOTS IN PARTS OF BRITAIN

**The all-postal ballot in the June local elections turned into a nightmare in the North East.**

The delay by the various councils getting the ballot papers delivered on time cost us a few votes. Parts of the North East received the papers nine days later than the date on the election schedule that we received. Since our campaigns were centred around the dates people would receive their papers and have the NF fresh in their mind while voting, we feel slightly aggrieved. Had we known of the delay in advance (or was this a deliberate attempt to disadvantage the NF?) we could have had an extra election address prepared and delivered by our canvassing teams.

Apart from the delays, the most sinister aspect of this election was the fact that all the ballot papers, the send and return envelopes and the signed and witnessed statement (would you need a witness at a polling station?) were all individually bar coded.

**This was certainly not a secret ballot and we received several calls of concern from people worried that if they voted NF they might have a little black mark against them on a government register somewhere?**

This was a third world dictatorship style ballot designed to reduce the Nationalist vote by fear and administrative incompetence, not to mention the potential of vote rigging behind closed doors.

**Never again should we have all-postal voting in a democratic society. We demand free and fair elections as we have not descended into a third world nation - YET!**

# REWARDED FOR TREACHERY

Diana Brittan, while chairman of the Community Fund, awarded large sums of lottery cash to various anti-British and alien bodies, while refusing to give financial help to many worthwhile British organisations.

Diana Brittan has exploited our good nature to an incredible degree.

**In a ten-year period refugee groups have been given £68 million, while British ex-servicemen's organisations have received less than 2 million.**

Under Brittan's guidance, £340,000 was given to the Anti-Deportation Campaign, a small group which helps terrorists and undesirables stay in the UK after the authorities have deemed they should go. An IRA support group from South Armagh has been given £5,000, a homosexual group was awarded £5,000 for one concert at Leeds university. A left wing team from Bulgaria was given £403,000 while a fringe gathering of Somalis residing in the UK received nearly £270,000.

When the details of this gross misappropriation of funds were revealed in the newspapers, the public in a state of revulsion cut back on buying lottery tickets. This caused sales to drop by around £1 miilion a week.

Despite public opposition, Mrs Brittan and her left-wing team continued to favour extreme foreign and anti-British organisations. In the final week before the Community Fund was disbanded in disgrace, a further £1,000,000 was handed to "refugees" and one fiftieth of that sum to veterans of D. Day on this their 60th anniversary.

**When confronted by her extreme anti-British behaviour, Lady Brittan said she would do it all again only be more "savvy" about it. By "savvy" we presume she means devious and secretive.**

Treachery seems to run in the Brittan family. Husband **Leon Brittan**, (right) a Lithuanian Jew, and one-time Conservative Home Secretary was also an EU commissioner, helping to create a Socialist Eurostate. He became a peer in 2000.

Awarded £2 million for no good reason.

Diana Brittan has been an Equal Opportunities Commissioner, unjustly elevating foreigners to be equal to Britons in our own country. She has also been Chairman of the notoriously anti-British, left-wing Runnymede Trust think tank.

In all things anti-British she is at one with Tony Blair and his team of cronies. In June members of this extremist group awarded titles to some of their fellow comrades.

**The old reprobate, Diana Brittan, was made a Dame**.

**No money forthcoming. Fought for their country 1939-45.**
**Britain is no longer their country according to Blair, Hague and Howard.**

# IMMIGRATION

# OPEN YOUR EYES

**Robert Owen, seconded to the National Criminal Intelligence service as a special investigator has blown the whistle on government immigration cover-ups. Mr Owen stated at one stage there were 1,000 people a day arriving at terminal 3 of Heathrow Airport to claim asylum. There was no "serious" arrangements made to send them back.**

These unruly rebels are by now probably in the UK.
Could they be your new neighbours?

Giving evidence at Swansea Crown Court in relation to 3 people accused of trafficking immigrants. Mr Owen disclosed that the official census put the number of people from China living in Manchester at 8,000, but the immigrants' local association gave the real figure at between 40,000 to 50,000.

These figures should worry everyone, a thousand foreigners a day from just one port of entry. 50,000 Chinese in one city, when there are scores of cities and foreigners from virtually every country flooding in.

Such information is of vital importance to the British public, yet predictably it has been withheld. As Mr Owen reported this information is "highly classified". It should not be. There are far too many cover-ups by parliament.

There is no reason on earth why the developed white nations should take in a continual flow of undesirables from the third world. Among the unwanted from the backward countries there is a large contingent of Liberians who have been 13 years caught up in a civil war in Sierra Leone. Hyped up for warfare, with revenge on their minds these people are definitely not wanted in Britain.

More than a million Liberians are on the move. In addition tribesman from several West African countries will also be allowed to settle here All will be given refugee status and will be eligible for free housing, income support and a full range of benefits.

**Other white countries suffering this imposition include Canada, Australia, America, Finland, Holland, Norway and Sweden.**

We are told under the Geneva Convention of 1951 that all EU states are bound to consider any asylum application lodged by someone arriving within their borders. What may have been acceptable in 1951 is certainly not acceptable today, with it seems half the third world population heading in our direction.

*One may also ask how an agreement made in 1957 could possibly bind an entity (the EU), which did not come into existence until some 3 decades later.*

**The United Nations High Commission for Refugees (a Communist organisation) is behind the drive to resettle these people in white man's lands.**

# REPAID WITH TREACHERY

**The New World Order and their Communist sidekicks have for many years been slyly beavering away within the advanced nations, corrupting the young, while lowering moral and educational standards.**

To achieve a permanent setback to the more intelligent and industrious countries like Britain, Canada, Italy and France, our enemies have done their utmost to persuade the intellectually superior whites to cohabit and have children with mentally inferior peoples from the backward countries.

There is certain information that the anti-racists would like to keep from the general public. Within this information is the fact that there are significant differences between the races, and sometimes even between different tribes of the same race. The Orientals have the highest average IQ score at 106. Whites come close with an average of 100, while the African negro lags a long way behind with an average IQ of 70. High civilisation was attained by the Egyptians, Greeks, Romans and more recently by the white Europeans. Advances are made when a united people set its mind to improving society.

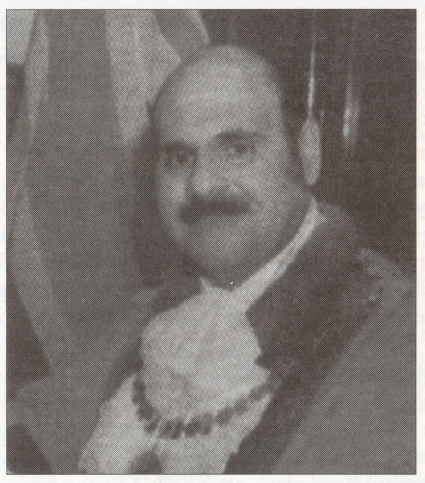
The Victorian British are a good example of a moral people making enormous strides in science, engineering and discovery. It has been the arrival of aliens, coinciding with an attitude of sloth, idleness and immorality that has brought about the demise of great civilisations. We can witness anti-racists creating the conditions to bring about our downfall in the same way.

I think we have made our case as to the real reason why non-whites are being flooded into Britain. It is not to help the aliens so much as to destroy the white nation. We are therefore angry and distressed whenever we see politicians inviting all and sundry to our land and then for no good reason give them British citizenship.

We saw how Albert Elder put his own safety in jeopardy in order to protect his adopted country. Sad to say that not all follow Albert's high moral code.

On the 15 April, a treacherous citizenship ceremony took place where, the Mayor of Barnet, Melvin Cohen, aided and abetted by the leader of the Council, Victor Lyon, handed British citizenship to a group of foreigners who had come from India, Pakistan, Africa, Kosovo and the Philippines.

This kind of sell-out ceremony was dreamt up by the twisted minds of New Labour worthies.



**The likes of Melvin Cohen get elected because too many people vote for a party, knowing little or nothing about the candidate.**

On the same day that Messrs Cohen and Lyon took pleasure in giving our country away and undermining our birthright, the Israeli Prime Minister announced that he would not give back a good part of the occupied Palestinian lands.

Well, after all one's homeland territory has to be defended with the utmost force, doesn't it?

**There seems to be an enormous amount of hypocrisy taking place within the politics of our Town Halls.**

# REPLACING LIKE FOR LIKE

**With the number of American casualties rising in Iraq and the resistance to the Bush regime's occupation of that unfortunate country, George Bush's prospects of being re-elected look unsure. Government overspending has become a worrying election issue too.**

Those who control America are not going to allow power to slip from their grasp simply by holding an election. A new President from the same stable is likely to take over and maintain the status quo. Indeed such a near clone has appeared. As soon as George Bush's position seemed threatened, there was suddenly great interest generated by the news media in a man who was described as "a great political" find as well as a "clean hero". A man who could be trusted and who held a heroic service record. Here was the man likely to become the new President who would create a new panacea.

John Kerry was the "man from nowhere" tipped for the top, yet he had not made one profound political statement, or said anything that would indicate he was fit to be leader of the most powerful country in the world. Kerry had been a senator in Massachusetts where he pretended to be Irish. With a strong Irish community it helped get him elected. He would often wear large shamrocks to get the message across.

Now that he is challenging for the top job he has admitted that he is part Jewish and has no Irish blood at all. Kerry married into the Jewish, Heinz food family, who also have interest in the Coca Cola Company.

**It looks likely that a powerful Jewish lobby will retain control of America simply by passing power from one chapter to another. In Britain we have a similar situation where the Jewish controlled Labour government will probably be replaced with a Jewish controlled Conservative one..**

This unacceptable state of affairs is likely to be brought to an abrupt end now that the general public worldwide have become aware of widespread corruption and abuse of power committed by senior politicians who serve only their own interests.

# MIND BRITAIN'S BUSINESS by Derek Godfrey

**This year has marked the 60th anniversary of D Day the biggest sea bourn invasion in the history of warfare.**

On the beaches of Normandy and in the ensuing campaign to "liberate" Europe thousands of British lives were added to the many, of both the armed forces and civilian population, that had already been lost in conflict over affairs on the far side of Europe in which clear-sighted people had believed were of no consequence to Great Britain and, therefore, with no reason for us to become involved.

Five years previously, and with our ground forces so depleted as to be ill prepared for a second major European war. The government committed Britain to war following Germany's rejection of a demand to withdraw its forces from Poland, a country that had never had any ties with Great Britain and with whom we previously had no commitment.

It has never been satisfactorily explained why no such ultimatum was given to the Communist dictator Joseph Stalin who's forces had invaded and occupied the eastern half of Poland.

The end of the year was to see not just Poland, the country who's freedom Britain fought for at such grievous cost to herself, but the rest of eastern Europe under a Soviet occupation in every sense as repressive as the Nazi's.

As a result of gutless government, the post war years were to witness the decline of Britain from a once great imperial power to the level of what many now regard as a third rate country.

6th June 1944, scene from one of the Normandy beaches where British and allied forces landed to liberate Europe. Many survivors returned to Normandy this year for the 60th Anniversary.

Today no longer even in control of its own internal affairs but dictated to by America, a country which has never really been a true friend and ally of Great Britain, the "European Union" and non-British immigrant communities which government folly had allowed to evolve in Britain.

In 1940 large numbers of patriotic Britons, many with distinguished service records from the first world war, were rounded up and interned under the notorious Regulation 18B (something which some would no doubt wish to see reactivated to silence British Nationalists today) because of their opposition to a war in which they claim to this day we should never have become involved.

Even though the enemy had been defeated in the Battle of Britain we were continually told, and still are today, that nothing less than total defeat and destruction of the enemy would prevent an invasion of Britain - something that had never been successfully achieved since the Norman conquest and which Spain attempted with disastrous consequences to herself over 400 years ago.

The fact is that although having been the most powerful and sophisticated force ever to confront Britain, and which had proven virtually invincible during the early stages of the war, the German military machine was never given the logistical capabilities of undertaking such a risky venture as a sea bourn invasion.

It has been said that even Churchill discounted the possibility of an invasion of Great Britain and who, following Britain's victory over the Luftwaffe, could have negotiated an end to the war from a position of strength. Why this did not happen is a question that some of us still ask today.

**"Mind Britain's Business" was the campaign slogan of the anti-war movement of the 1930's. But with our servicemen continuing to be placed in harms way in Iraq and other areas of the world with no British interests at stake minding Britain's is a lesson it seems our elected leaders have yet to learn.**

# NORTHERN IRELAND THE ATTACK GOES ON

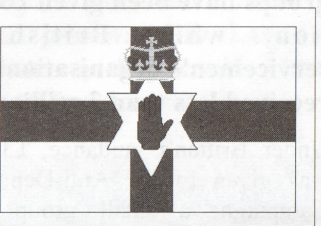
**A subversive element within the government is aiming to replace the traditional and much respected flag of Northern Ireland with something more to the liking of Ulster's enemies. Perhaps something in green with the letters IRA would satisfy the Westminster traitors.**

The Northern Irish were the first people in Britain to find that Parliament would side with our nation's enemies. When the IRA resumed its violent campaign in Northern Ireland during the 1970's Ulstermen expected the British government to despatch troops immediately to protect them. Surely, if similar outrages occurred in London, Portsmouth or Devon, the army would protect British citizens and shoot-to-kill terrorists, or so they thought. Although Northern Ireland is part of the UK, no help was forthcoming.

*Unprotected the Loyalists formed their own para-military organisations to defend their families and neighbourhoods.*

When the British army was finally sent to Ulster, soldiers were informed that they must not take sides between British subjects and IRA terrorists. For a good many years the Labour Party has given its unconditional support to the IRA. This has drawn no criticism from Liberals or Conservatives who obviously feel that such an alignment is acceptable.

Our enemies aim to destroy our national identity, together with our culture and religion.



The multi-racial society has been created for this purpose. Anti-nationalists have banned, disbanded or replaced many long established entities of national importance to this end. The Northern Irish flag is the latest target of the enemy within.

**It is sickening to see the likes of Blair and Livingstone getting elected after assisting anti-British terrorists who have claimed so many British lives.**

# LETTERS TO THE EDITOR

*The Flame* - PO Box 274, Hemel Hempstead, Herts. HP3 9EQ

Dear Sir,

I have been a cabbie for over twenty years and wanted to write and say how I agree with all that I have read in The Flame. We cabbies are suffering a rapid increase in attacks throughout the country.

In the good old days when I first started in the business, stabbings and assaults on cabbies were virtually unheard of. Today they have become an occupational hazard. Friday and Saturday nights are busy periods. The worst scenario we used to have to deal with would arise when picking up groups of office staff, around ten o' clock, after they had been on a drinking spree. Invariably, one of them would be sick in the back. This would mean taking the cab off the road for the rest of the night. So if we saw a mixed group looking the worse for drink we would quickly pass by. Today we have far more serious problems to worry about.

Not wanting to put our lives in danger, there are estates that we refuse to enter and types of troublemakers that we avoid. No doubt there are many poncy politicians living far away from these trouble spots who would like to tell me that I must go to every area and accept every fare, because my racist attitude is unacceptable. To them I would say I dare you to walk the length of the Harrow Road alone after dark. I have a brain, which weighs up every situation I encounter and tells me how to respond. I am not prepared to let the politically correct thought police do my thinking for me; they would lead me into danger.

There have been numerous attacks on cabbies lately. One driver in Basildon was the victim of a carjacking attack where one of the two men involved held a knife to the cabby's throat. In Nottingham, taxi driver David Bearder is too frightened to return to work. He was stabbed repeatedly by a passenger and while covered in blood was forced out of his cab. The assailant drove off in the vehicle. In a previous incident the same knifeman had wrapped curtain wire around a driver's throat, produced a six-inch blade and demanded cash. On this occasion the cabbie managed to break free. Robert Wooley was sentenced to a mere four-and -a -half years imprisonment for the two assaults, plus two charges of theft and one of carjacking. Michael Evans, a do-gooder Defence Lawyer, said Wooley "suffered from depression. Without drugs he is a charming and respectable person." Ray Butterworth, Secretary of the Nottingham Private Hire Drivers Association said "violence against taxi drivers is getting worse. There's a broad view the sentences don't fit the crime."

In some areas the minicab business has become monopolised by dubious-looking aliens. Assadullah Razaq, an alleged Afghan "refugee doctor" was doing minicab work in London. He was using a false driving licence and had no insurance. Razaq was jailed for eight years for raping a woman passenger. It was recommended that he be deported when his sentence has been completed. The Afghan asserted that he would be stoned to death if he returned to his own country. One wonders if he had fled his homeland after being found guilty of similar offences there. It transpires that his father is working in Britain as a judge. God help us!

Name and address supplied.

Dear Flame,

Our elected representatives who have a mania for what they term "equality" and equal opportunities seem to have a strange idea of what equal opportunities mean. Political authority seems to be bestowed only on those who want to destroy our, race, nation, culture and civilisation. Anyone who is prepared to defend our once-great country is categorised as too evil to be considered for any position. Why cannot we have anyone in government who will defend the British nation? Or anyone in the Church who will defend traditional Christianity and its moral code? Why is there no-one in the Department of Education trying to restore proper teaching methods and a "3Rs"- based curriculum. Similarly, no attempt is being made to return policing to the purpose for which it was created - that was protecting the public.

The quest for equality and inclusiveness has amounted to removing from public life all decent, morally upright, British individuals who might restore order and civilised behaviour. Decent people have been dismissed from their positions or turned down for the jobs because they do not possess the required level of degeneracy for post-60's Britain. As far as I am concerned, no foreigner is equal to me in my own country. Similarly, I would not expect to be treated as an equal abroad. Nor would I be.

L. Ward, Kent

# IF TONY BLAIR ALLOWS A REFERENDUM ON THE EU
# MAKE SURE YOU VOTE NO

**By stealth, the EU has been imposing directives, which have taken away our freedom, and right to self-determination it has also undermined our status as a nation state.**

The public were told initially that we were only entering a Common Market; this was to be no more than a trading area. This turned out to be a blatant lie. Successive governments since that of Edward Heath have conspired with socialist tyrants in Europe to try and create a superstate, something they have always denied. They have denied it because they know it is something that we would justifiably be fearful of. The majority of the people in every country in the EU oppose further integration, yet they are being driven further in. The whole affair is quite sinister. If we have an opportunity to flee from the EU by voting No, we must.

Of course we haven't yet seen the EU at its worst. However, Eurocrats have given us a clue what would be in store, if we were foolish enough to fall into their trap. They have admitted that any form of criticism will be deemed a criminal offence. For a single administration to keep tight control over such a large number of diverse peoples would require an iron fist and jackboot, similar to those employed in the former Soviet Union. The rapid increase in the level of public monitoring and surveillance which has recently taken place would make Stalin feel proud, So too all of the new rules, and a myriad of do's and don'ts which have stifled businesses and blighted our private lives.

1972 - NF Demonstration against Heath signing the 'Treaty of Rome'

We have watched our fishing and farming industries being destroyed unnecessarily through EU directives. In Britain it is through the Crown that we enjoy our liberty and protection. If New Labour were to get a "yes" vote the monarchy would be sacrificed on the altar of Euro socialism. Only if the Queen is able to carry out her Coronation Oath will Her Majesty be able to protect us from alien and foreign-made laws. If the Royal Family were to be deposed it would leave the British public at the mercy of foreign courts. One could be summoned on the most ludicrous of charges, on issues, which are not a crime in Britain. Unlike the UK where one is innocent until proven guilty, in Euroland one is deemed guilty and has to prove one's innocence. It would be possible for a foreign court to have anyone extradited on a jumped up charge and one that would not be an offence under British law.

The European Communities Act of 1972 and the Treaty of Rome, which were signed by arch -traitor Edward Heath while under instruction from international financiers, the Imperial Institute for International affairs and the Rothschilds, were designed to undermine the Queen's authority and make the British subservient to a clandestine alien power.

**If we are allowed a referendum we should seize the opportunity with both hands and vote "No".**

Also, let us make sure everyone we meet does the same, for the government is so determined to sign up to the EU that it will resort to any kind of trickery to get the result they want.

# A MESSAGE FROM OUR FRIENDS IN AMERICA

We have recently had a letter from America with more news of the global attack on the white man.

Mr Frank A. Sweeney PhD has recently returned to America after visiting Germany.

He reported that German culture, as we know it is on the verge of extinction. This once great country, this once mighty nation, is destroying itself through racial assimilation. Germany has descended into a cesspool of racial muck and mire of its own making. German teenagers are obsessed with black American culture, many dress like rappers, wearing loose, baggy clothes with caps turned backwards; black and Turkish men wearing Bundeswehr uniforms; German women strolling the streets with their horrendous black babies. But worst, German parents who tell me that they would have no objection to their sons or daughters marrying any other race or nationality. "We are all human beings, we are all the same people", they whine. They all seem very sincere in their stupidity.

After the Second World War the enemies of the white race were allowed to carry out what was called a "de Nazification programme" in Germany. This pernicious programme carried out by haters of the white race never ended and was not confined to Germany.

**Every white nation has suffered at the hands of a self-promoting, clandestine group that now calls itself "The New World Order".**

# GOOD ADVICE - BUT RACIST IF APPLIED TO EUROPEANS

**While white girls are being encouraged to mate with blacks and flaunt themselves in skimpy costumes, the Jewish community are tightening up on moral standards.**

There is no sex-education programme for minors in Jewish schools, while Jewish females have recently been seen walking to and from the synagogue in mainly ankle-length dresses. There is much evidence of other religious denominations trying to prevent liberal attitudes creating havoc in their communities.

London Jewish News 22.8.03 gave advice to Rachel Stevens when she parted from her non-Jewish boyfriend Jeremy Edwards. Hedi Fischer said that the former S-Club beauty, Rachel Stevens, should be looking for a nice Jewish lad if she hopes to fulfil her dreams of getting wed and having children.

Liz Rose who runs a dating agency said, "A Jew marrying a Jew is so much easier".

**" Time and time again I see the problems associated with inter-dating and intermarriage".**

"Relationships are hard enough without bringing different backgrounds into the equation".

# AN INJECTION OF HIV

**Socialists and anti-racists use every means at their disposal to bring about the genocide of the white race. Breeding us out of existence is one of the easiest ways to bring about our demise, which is why we see so many black men with white girls in films and on our television screens.**

Nothing could be more explicit in getting the message across of racial suicide as being normal than watching mixed-race couples having sex. To this purpose, the cosmopolitan sex film industry has gone into overdrive in making mixed-race blue films.

**The high incidence of AIDS among Africans has meant that the disease would pass on to whites participating in this industry, and it has.**

Lara Roxx, a naive 18-year-old, was led to believe that blue movies would open doors to the film industry in Hollywood. She contracted HIV after working only 3 months in the sordid business.

Lara is the second porn star to contract the disease in a short period. All of those who have participated in the adult film industry are now scared that they may have contracted the deadly virus.

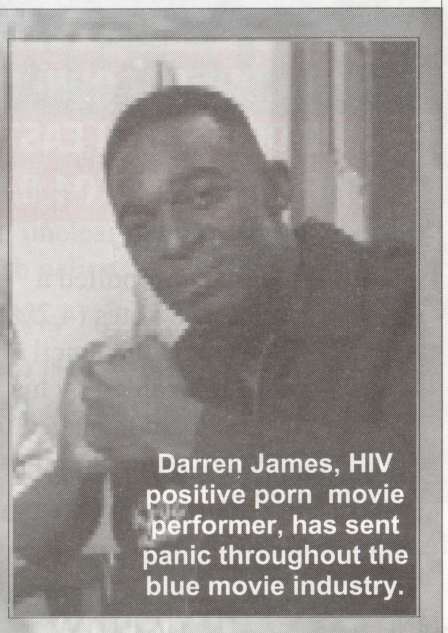
Lara Roxx, more than likely contracted HIV from Darren James during a perverse double sodomising act with (now also at risk) Mark Anthony.

**This is a warning to all young promiscuous teenagers. Chlamydia and AIDS are common, and every time they have irresponsible sex they are putting their lives and fertility at risk.**

Socialists have warned teachers not to suggest to ten-year-olds that sex before marriage is wrong.

The Family Planning Association (a good and wholesome title) has said that such warnings would be "judgmental" and wrong. Teachers of young children, they said, should "respect the diversity of society when teaching about sex and relationships". It suggests that we should refuse to teach a Christian based moral code to the children in our charge, preferring instead to lead them into underage sex, teenage pregnancies and a likelihood of catching serious diseases.

This advice to teachers by anti-racists came soon after they advocated telling 13 year-olds to engage in oral sex.



Darren James, HIV positive porn movie performer, has sent panic throughout the blue movie industry.

**We need to address the lack of morality in state schools.**

*In Britain homosexuals are no longer top of the HIV league table, they have been pushed into second place by Black immigrants/asylum seekers.*

**3,687 NF votes in our 10 target wards, that's an average of 369 votes and an average 11.5% per ward. This is a tremendous improvement in our vote since 2003 as we gear ourselves up to the general election.**

## ST. DUNSTANS & STEPNEY GREEN WARD (OF TOWER HAMLETS) BY-ELECTION 29.07.04

**Lynda Miller polled 172 votes (6.1%) in a ward that is 75% Ethnic!**
We stood to let people know that the National Front are still here and still fighting for the white British people. Turnout was a low 29%, this means the majority of the minority whites still left in the ward did us proud by coming out and voting National Front. When our result was read out the whole room went into stunned silence. People looked at each other, George Galloway among others raised an eyebrow. There was no cat calling...no booing or hissing...just silence. We were the underdogs here, fighting a lost cause according to some, but we will defend every square inch of Britain till the last man is still standing. Well done to Dave Hill, the election agent and the local London members who ran a very good campaign. Respect 878, Lib 754, Lab 578, Con 445, NF 172

## BIRMINGHAM - HODGE HILL PARLIAMENTARY BY-ELECTION 15.07.04

**Well done to our candidate Jim Starkey, Terry Williams the election agent and Ken Booth, who had the task of getting our 42,000 election address produced and approved for delivery by Royal Mail.**

Considering this was a snap parliamentary by-election called by Tony Blair, that gave us only two weeks from the close of nominations to mount our campaign and in view of the virtual media blackout towards the National Front, the 805 votes was an excellent result for Jim and the hard-working activists of Birmingham NF in the West Midlands.

It will be interesting to analyse the other parties expenditure as the parliamentary by-election budget ceiling is set at £100,000 and as we spent less than £1,500 including the deposit, we must have polled the highest percentage vote per pound spent by any party in Hodge Hill.

**A big thanks to all the NF candidates and everyone involved with running the campaigns and a special thanks to the people who donated money to our election fund.**

We are now looking towards the next general election and we are starting our fund-raising now. The deposit to stand in each general election constituency is £500 and we will need 40 to 50,000 election addresses for delivery by royal mail, plus our own secondary addresses and other election material for our canvassing teams on the ground, this equates to around £1,500 per constituency contested.

We have already evaluated areas we wish to contest and in which we are confident of doing well or at the very least saving our deposit. With your help we could field a slate of up to 50 candidates.

*For instance we will stand in Newcastle North, of which we have contested 3 of the local wards (Newburn, Lemington and Denton this year and Newburn & Lemington in 2003) that are in the constituency with an average vote of 13%.*

50 candidates would mean raising £75,000 between now and the general election being called, so we appeal to you directly to send your donations to our central election fund, payable to 'National Front' to: PO Box 124, Great Yarmouth, Norfolk, NR30 5PN.

We would also like to hear from anyone who would like to be considered to stand as a National Front candidate in any forthcoming elections and would appeal to members and supporters to contact us with any details of any impending by-elections in their area.
